Professional Summary

Results-driven Senior React JS Developer with 6+ years of experience building scalable, high-performance frontend applications using React JS, Vanilla JavaScript ES6+, HTML5, CSS3, jQuery, and Node.js. Proven expertise in designing and developing reusable front-end libraries, ES6 Node modules, and Object-Oriented JavaScript solutions across enterprise-level projects. Strong track record of delivering solutions on time and on budget within Agile/Scrum environments, participating in peer code reviews, and maintaining high software quality standards throughout the full SDLC. Adept at analyzing and resolving complex technical problems with excellent written and oral communication skills.

Technical Skills

Frontend Core: React JS (4+ yrs), JavaScript ES6+, Vanilla JavaScript, HTML5, CSS3, jQuery, Node.js
React Ecosystem: Redux, React Query, React Router, Hooks, Context API, Reusable Component Libraries
OOP & Modules: Object-Oriented JavaScript, ES6 Node Modules, TypeScript, Next.js, Webpack, Babel
Backend & APIs: Node.js, RESTful APIs, GraphQL, Express.js, MongoDB, MySQL
Practices & Tools: SDLC, Agile/Scrum, Peer Code Reviews, Unit Testing, Jest, CI/CD, Git, JIRA

Professional Experience

Software Developer

Sep 2022 – Present

Amdocs

Pune, India

- Developed and maintained high-quality frontend applications using React JS, Vanilla JavaScript ES6+, HTML5, CSS3, and jQuery across 15+ enterprise modules, adhering to established coding standards
- Designed, developed, and unit tested reusable front-end component libraries using React JS and ES6 Node modules with clear understanding of Object-Oriented JavaScript, reducing code redundancy by 40%
- Participated in peer code reviews of solution designs, maintaining high standards of software quality and establishing good development practices and habits within the team
- Facilitated scaled Agile/Scrum process through daily standups, sprint planning, sprint demos, and retrospectives, consistently delivering solutions on time and on budget
- Utilized Node.js and front-end tools to build scalable UI solutions integrating RESTful APIs, analyzed and resolved technical problems improving team productivity by 45%

Software Engineer

Jul 2020 – Sep 2022

Creative Information Technology, Inc.

Navi Mumbai, India

- Built responsive frontend user interfaces using React JS, Vanilla JavaScript, HTML5, CSS3, and jQuery, demonstrating strong React JS experience with Object-Oriented JavaScript principles
- Developed ES6 Node modules and reusable front-end libraries, leveraging deep understanding of JavaScript frameworks, Node.js ecosystem, and modern build tools including Webpack and Babel
- Participated in all SDLC phases from requirements analysis and design through development, testing, deployment, and maintenance, ensuring high-quality deliverables on schedule
- Conducted peer reviews of solution designs and related code, analyzed technical problems, and delivered solutions following established development standards and best practices
- Worked in Agile/Scrum environment with daily standups, sprint planning, and retrospectives, demonstrating strong written and oral communication skills across cross-functional teams

Key Projects

Threads Clone (Full-Stack) | *React JS, Node.js, ES6 Modules, TypeScript, MongoDB*

- Architected full-stack social application using React JS and Vanilla JavaScript ES6+ with reusable component libraries, Object-Oriented JavaScript patterns, Node.js backend, and unit testing

Memories Social Media App (MERN) | *React JS, Redux, Node.js, Express.js, MongoDB*

- Built full-stack MERN platform with React JS, Redux state management, ES6 Node modules, RESTful APIs, and jQuery, applying SDLC best practices across all development phases

Education

Bachelor of Engineering in Computer Engineering

2016 – 2019

D. Y. Patil College of Engineering

Pune, India

Certifications

JavaScript - Basics to Advanced | Next.js | Complete CSS Course | Node.js - Complete Guide
